Experience

Team Lead Gameplay

Belgrade, Serbia

Wargaming

Apr 2024 – Present

- Built and led a gameplay team of 7 engineers, setting vision, hiring talent, and establishing scalable workflows that reduced iteration time
- Championed cross-functional collaboration, ensuring timely delivery of gameplay features aligned with both creative vision and technical constraints
- Balanced hands-on development with project leadership responsibilities, delivering major gameplay features on schedule while maintaining a high-performing team dynamic
- Fostered a culture of ownership and delivery by implementing feedback loops, improving team delivery velocity

Tools Team Lead

Belgrade, Serbia

Wargaming

Nov 2023 – Apr 2024

- Recruited, trained, and managed a team of 3 tools developers, establishing onboarding processes and mentoring workflows that increased productivity
- Directed tool development projects, ensuring alignment with business needs and operational goals
- Streamlined project planning and communication processes for efficient task delivery

Tools Developer

Belgrade, Serbia

Wargaming

Jun 2023 – Nov 2023

- Developed and optimized internal editor using C++, QML and Qt, improving artists and designers workflow efficiency
- Coordinated cross-team and stakeholder communications to achieve key milestones

Software Developer I

Belgrade, Serbia

Sperasoft

Dec 2022 – Jun 2023

- Led UI development and performance tuning for proprietary game engine tools using Lua, reducing load times and improving responsiveness
- Diagnosed and resolved memory leak and threading issues, improving software stability and cutting crash reports
- Held syncs with external clients and internal dev team to align feature roadmaps, reducing miscommunication and improving delivery accuracy

Junior Programmer

Belgrade, Serbia

Ubisoft Belgrade

Feb 2021 – Dec 2022

- Integrated telemetry and analytics systems into gameplay pipeline using C++, enabling real-time insights that influenced feature balancing
- Designed and optimized UI components using ActionScript for both PC and Stadia builds
- Managed full development cycles, meeting deadlines and achieving project milestones

Software Developer

Moscow, Russia

RnDoer

Dec 2019 – May 2024

- Designed object recognition algorithms using OpenCV for robotics prototypes, improving detection accuracy
- Developed and maintained Flask-based web apps and Qt desktop tools for internal robotics testing workflows, increasing test automation coverage
- Built control logic and data logging modules for autonomous navigation systems used in robotics prototype

Education

42

Nov 2018 – Dec 2022

Software Engineering

- **Grade:** 21 - Level (Senior degree)
- Programming school. No teachers. No lectures. No grades.

School 21(L'ecole 42) is an educational initiative based on the "school of the future" methodology that has been used by the innovative French programming school "Ecole 42" since 2013. "School 21" trains world-class specialists in information technology (IT) using a unique educational methodology: without teachers, without lectures, without grades. The methodology is based on peer-to-peer, or collaborative learning.

Peoples' Friendship University of Russia

Sep 2016 – Jun 2020

Bachelor's degree, Mathematics

Peoples' Friendship University of Russia is a unique university, a large internationally oriented educational and scientific center, widely known in the world for its achievements in the organization of the educational process, scientific research and international relations. Peoples' Friendship University of Russia draws students from 160 countries of the world every year. The university offers a variety of areas of study and specializations - technical, scientific, medical, economic, humanitarian.

Projects

Games: Coldwar, World of Tanks, Call of Duty Black Ops 6, Call of Duty Modern Warfare III, Call of Duty Warzone 2.0, Skull and Bones, Assassin's Creed III Remastered Stadia, Assassin's Creed Liberation Remastered Stadia, Assassin's Creed Rogue Remastered Stadia

Technologies

Hard Skills: C++, C, Python, ActionScript, QML, Lua, Qt, Docker, Flask, Git, Perforce, SVN

Soft Skills: Team Leadership, People Management, Product Management, Project Management, Technical Leadership

Languages: English (Advanced), Russian (Native), Serbian (Native), German (Pre Intermediate)
